## **Editorial**

Dear Readers,

following the GoJIL-Call for Papers in late 2017, we are delighted to present you the current issue, a Special Issue on *The Law Behind Rule of Law Transfers*. A year of hard work comes to an end and we are convinced the quality of the issue will speak for itself.

Many thanks are due to Till Patrik Holterhus without whom this issue would not have been possible and who will in the following introduce you to this Special Issue's topic in an introduction.

We hope the thoroughly selected articles provide for yet another worthwhile read to our readership.
